

Essential ultrasound skills for the small animal practitioner

13th June and 14th June 2015 – Adelaide Animal Hospital

Thank you for your interest in attending our ultrasound workshop we are holding at Adelaide Animal Hospital. Please find essential information of the workshop listed below. Please let us know if you have any further queries with regards to the workshop.

Cost

The cost to attend the workshop is AUD\$1,815 excluding GST with full payment required prior to attending. When we receive your completed booking form, we will send a confirmation e-mail together with a Tax Invoice. Attendees who are pet dog owners are able to get \$150 off if they are willing to bring their dogs for the workshop as 'patients' during practical sessions. Please contact us for more details.

Timing

The course is scheduled to run from 8.30am to 4pm with allowance for morning and afternoon breaks plus lunch. For people who plan to arrive late or need to leave early (catch flights), please let us know so we can accommodate.

Meals

Tea, coffee and soft refreshments are provided and available all day during the course. A generous lunch will be provided with a wide combination of food & fruit available. Plus there will be morning and afternoon snacks supplied. *Please let us know if you have any special dietary requirements.*

Training

Course notes will be provided together with note pad and pen for taking additional notes.

Tutors

Dr Cathy Beck BVSc(Hons) DipVetClinStud MVS FACVSc (Radiology)

Dr Cathy Beck graduated from the University of Sydney in 1992 and after working for two years in private practice, completed a mixed animal internship at the University of Sydney, Camden where she developed an interest in imaging. Cathy then moved to the University of Melbourne where she gained a Masters of Veterinary Studies and then spent six months at the Ohio State University as Clinical Instructor.

Cathy returned to Melbourne and gained Fellowship of the ANZCVSc in Radiology in 2002. Cathy is a registered specialist in Radiology and is currently Senior Lecturer in Diagnostic Imaging at the University of Melbourne.

Dr. Karon L. Hoffmann BVSc, MVSc, PhD, Dip Vet Clin Stud, Dip ECVDI.

Dr Karon Hoffmann developed her passion for diagnostic imaging early during her veterinary career as a large animal internist. Since that time she has pursued both research and clinical expertise in the discipline and has earned both a Masters degree and PhD in Diagnostic Imaging. Karon has published over 40 scientific articles and has represented the profession in many roles including as President of the Australasian Association of Veterinary Imaging. Karon was a worthy recipient of the Hungerford Award for her holistic contribution to research, teaching and clinical scholarship in large and small animal sonology. Karon is the creator of the Sonology Distance Education Course for the CVE and co-tutors this highly successful course with her colleague, Dr. Cathy Beck. Karon is a Diplomate of the European College of Diagnostic Imaging and uses the complimentary nature of routine and advanced diagnostic imaging and interventional procedures to help in the diagnosis and treatment of complex clinical cases for veterinary practitioners."
