Tutors:

Dr Jane Day BVSc MVS FANZCVS (Radiology) Specialist, Veterinary Radiology

Jane is a radiologist at Western Animal Veterinary Emergency and Speciality (WAVES) in Perth and also works for IDEXX teleradiology. She has worked in the radiology departments of Queensland, James Cook, Melbourne, Murdoch and Oklahoma State Universities. She grew up on a cattle and sheep property in country Queensland, Australia, but decided to work in small animal practice much to the disappointment of her father. Before specialising Jane spent a number of years in practice in Australia and the United Kingdom and began doing echocardiography and abdominal ultrasound while in general practice; she understands the joys and frustrations of scanning in this environment, and how to best advance your skills. Jane has been an invited speaker for continuing veterinary education at local, interstate and international meetings. She has extensive experience in teaching ultrasound, and has tutored at CVE and other ultrasound workshops since 2007. Jane is actively involved in the Radiology Chapter of the Australian & New Zealand College of Veterinary Scientists as an examiner and is currently vice-president.

Dr Belinda Hopper BSc BVMS(Hons) MVS FANZCVS (Radiology) Specialist, Veterinary Radiology

Belinda is a radiologist at the Veterinary Imaging Centre, part of the Perth Veterinary Specialists group in Osborne Park, WA. She is a Perth girl who received her veterinary degree from Murdoch University in 1994. After initially pursuing a career in equine medicine and surgery which took her from Dunsborough to Melbourne for an internship and Master's degree, and then to the southwest of WA for a stud season, Belinda saw the light and commenced a residency in Diagnostic Imaging at Murdoch University. She was awarded her Fellowship of the Australian College of Veterinary Scientists in 2004. A longstanding member of staff in the Imaging section of Murdoch University Veterinary Hospital, Belinda provided imaging services for the hospital and teaching for undergraduate veterinary students. During this time she developed a love of all fields of imaging, with a particular passion for echocardiography and veterinary education. Belinda joined the Veterinary Imaging Centre in 2008, providing outpatient imaging services to the vet clinics of Western Australia, as well as the other specialist practices of the group, and teleradiology to practices around Australia.

Belinda has been an invited speaker for continuing veterinary education at many local, interstate and international meetings and is an active participant and office-bearer in the Radiology Chapter of the Australian College of Veterinary Scientists and of the Australasian Association of Diagnostic Imaging.
